Environmentally Friendly Dual-Purpose Toner Containers

Conserve Resources with KYOCERA's Toner Locking System and its innovative Waste Toner Container design. Instead of replacing the full waste toner container with a new one, repurpose an empty black toner container as its replacement. The TASKalfa 6053ci & TASKalfa 6003i Series and their predecessor series all feature the Toner Locking System, furthering Kyocera's commitment to minimizing our impact on the environment.

Eco-Friendly In Mind

Toner Locking System

Waste Toner Container Replacement

ECO footPRINT™ Toner Recycling

**Minimize our environmental impact!**

We're taking steps to minimize our environmental impact. Kyocera's environmentally friendly design lets you turn the depleted black toner container into the new waste toner container with simple, do-it-yourself steps.
Toner

1. When the black toner container is empty, open the toner cover of the device.

2. Press the Open Toner Container Cover button that appears in the automated message on the TSI — the toner container cover will automatically be disengaged.

3. Carefully pull the empty black toner container out. Place a new black toner container into the empty slot, flat side facing down, and then close the toner cover of the device.

Waste Toner

1. To replace the waste toner container, open the waste toner container cover located just left of the first paper tray and remove the full waste toner container.

2. Locate the arrow on the top of the empty black toner container you just removed, and with the arrow facing the device and the flat surface facing up, insert the container until you hear a click.

3. Close the waste toner container cover. You're all set!

Toner Recycling Program

Fill the Kyocera Toner Recycling Box with Kyocera empty toner containers and Kyocera full waste toner containers until the box is full. Seal & Send. That's it!

Kyocera sponsors this program at no cost to you.
It's our way of saying thank you for helping us uphold our commitment to working in harmony with our environment.

ECO footPRINT™
Toner Recycling Program

Please contact us with any questions, to order more toner, or to have a free Toner Recycling Box Delivered to You.
